
LEONOR LEANDRO

Associate Professor
Dept. Plant Pathology and Microbiology
Iowa State University
Ames, IA 50011

lleandro@iastate.edu
Office: 515-294-8855
Fax: 515-294-9420

PROFESSIONAL RECORD

Education

- 2002 PhD in Plant Pathology: Iowa State University, USA
Dissertation title: Ecology and epidemiology of *Colletotrichum acutatum* on symptomless strawberry leaves
- 1997 MS in Environmental Science: University of Nottingham, UK
Thesis title: Use of spectroradiometry in assessing effects of the strobilurin fungicide, kresoxim-methyl, on wheat leaf greenness
- 1996 BS in Agricultural Science: Technical University of Lisbon, Portugal
Thesis title: *Cylindrocarpon destructans* (Zins.) Scholten: study of morphological and cultural characteristics and pathogenicity tests

Professional Experience

- 2012-present Associate Professor, Department of Plant Pathology and Microbiology, Iowa State University
Research program on ecology and epidemiology of soybean fungal pathogens with particular emphasis on sudden death syndrome (*Fusarium virguliforme*), the soybean Fusarium root rot complex and Asian soybean rust (*Phakopsora pachyrhizi*).
- 2006-2012 Assistant Professor, Department of Plant Pathology and Microbiology, Iowa State University
- 2002-2005 Postdoctoral Research Associate, Department of Plant Pathology, North Carolina State University
- 1998-2002 Graduate Research Assistant, Department of Plant Pathology, Iowa State University
- 2001-2002 Graduate Teaching Assistant, Department of Plant Pathology, Iowa State University

Membership in Professional Organizations

- Agronomy Society of America (2011-present)
- American Phytopathological Society (1998-present)
- NCERA-212 Soybean Disease Committee (2007-present)

Editorial Board Member/Associate Editor

2011-present Associate editor for Portuguese language translations for the American Phytopathological Society Education Center

RESEARCH SCHOLARSHIP AND ACTIVITIES

Publications

Refereed Publications

1. Diaz-Arias, M. M., Munkvold, G. and **Leandro, L. F. S.** 2011. First report of *Fusarium proliferatum* causing root rot in soybean (*Glycine max*). Plant Disease 95:1316.
2. Diaz-Arias, M. M., Munkvold, G. and Leandro, L. F. S. 2013. Distribution and Frequency of Isolation of *Fusarium* Species Associated with Soybean Roots in Iowa. Plant Disease (in press) <http://dx.doi.org/10.1094/PDIS-11-12-1059-RE>
3. Diaz-Arias, M. M., Leandro, L. F. S. and Munkvold, G. 2013. Aggressiveness of *Fusarium* Species and Impact of Root Infection on Growth and Yield of Soybean Phytopathology 103(8):822-832. DOI: 10.1094/PHYTO-08-12-0207-R
4. Ellis, M. L.' Diaz-Arias, M. M., Cruz, D. R., Munkvold, G. and Leandro, L. F. S. 2013. First report of *Fusarium commune* causing damping-off, seed rot, and seedling root rot on soybean (*Glycine max*) in the United States. Plant Disease 97:284-285
5. Ellis, M. L.' Diaz-Arias, M. M., Leandro, L. F. S. and Munkvold, G. 2012. First Report of *Fusarium armeniacum* Causing Seed Rot and Root Rot on Soybean (*Glycine max*) in the United States. Plant Disease 96:1693.

TEACHING AND EXTENSION ACTIVITIES

Courses Taught

- Micro/Biol 456 Principles in Mycology. 3 credits, two 1h lectures and one 3h lab per week.
Undergraduate and Grad students. (Fall 2006 - 50% responsibility, Fall 2007-2012- 100% responsibility)
- PLP 565 Responsible Conduct in Research, 1 credit, 1 h lecture/week (Spring 2010 and 2012- 50% responsibility; Spring 2013- 100% responsibility)
